Magic 8

Block Breakdown:

When looking at this block we could go a couple of different ways. I chose to make the pinwheels and corner blocks with the Magic 8 HST method and the geese using the Four at a time Geese method.

Another way you could do this block by making the Magic 8 for the pinwheels and corners and then a square in a square and pieced corners.

Sewing:

Use color 2 and color 8 to make the magic 8, pressing towards color 2. Form four of them into the center pinwheel (spin the seams) and reserve four for the outside corners.

Make 4 flying geese using the method of your choice. Press toward color 2.
